

Press Release

The Towne Printer Shifting Headquarters, Not Customers

WHITEFISH, MT: The Towne Printer announced today that they are shifting their headquarters from Whitefish to Kalispell on February 1st. Shawn Tucker, owner of The Towne Printer, recently decided to relocate the print shop's headquarters to their Kalispell location when the building they have leased on 237 Baker Ave. for the last 40+ years sold to a new owner. "We're not going out of business," Tucker explains, "We're not closing the store. We're just putting our HQ in Kalispell where our production shop is."

This decision is based upon the sale of the Baker Ave. building as well as The Towne Printer's plans to expand their already-growing commercial operation. Most of the printing is already produced in their Kalispell facility at 75 First Avenue WN. Now The Towne Printer will have one facility, streamlining both their efficiency and ability to grow.

"We will always maintain our presence in Whitefish," Tucker said. "We love our Whitefish customers, and nothing is changing. They can still pick up the phone and place their printing order with me, only now we will deliver it directly to their businesses. It will actually be even easier for Whitefish business owners to print with us."

With Whitefish delivery options and an expansion of their commercial growth, The Towne Printer is optimistic about its scheduled move to Kalispell on February 1st.

The Towne Printer donates over \$30,000 annually to local non-profits and charities through discounts or printed product. It is their mission to supply local businesses with a quality product at competitive prices and great service, made right here in the Flathead Valley.
